SUBJECTS

EDIZIONI MINERVA MEDICA

1. - ALPHABETICAL INDEX OF SUBJECTS

A

Acupuncture
Cutaneous electrophysiology and its relation visceral and cutaneous reflexes, 107.

Albers-Schonberg's disease
Assay on the present clinical and nosographical aspects of osteopetrosis (Albers-Schonberg's disease). Report of five cases, 213.

Allopurinol
The efficacy of treatment with allopurinol versus uricosuric drugs in gout, 155.

Anesthesiology
Anaesthesia and postoperative treatment in thymectomy for myasthenia gravis (Results in 190 cases), 141.
Cerebrospinal fluid pressure changes on intravenous administration of urea in anaesthetized dogs. A preliminary report, 263.
The clinical significance of acute hypophosphoraemia in a resuscitation and intensive therapy section (Clinical and statistical data), 197.
Continuous low-flow enteral alimentatoin by means of a Nutripompa food pump; preliminary results in neurotraumatological resuscitation, 197.
Controlled clinical study of AF 1161 (Trazodone) anti-dissociation effect in ketamine anaesthesia, 81.
Critical evaluation of systems to counter gas and anaesthetic vapor pollution, 197.
Personal experience with subclavicular incannulation of the subclavian artery, 81.
Results with massive doses of hydrocortisone in the prevention and treatment of cardiogenic shock, 141.

Angiography
Angiographic and scientific correlations and surgical treatment of supra-aortic trunk obliterations, 86.

Angiocardiography
The advantages and limitations of radio-isotope angiocardiography in acquired heart disease, 198.

Antilymphocyte serum
The use of antilymphocyte serum. Personal experience and general remarks, 39.

Artery, subclavian
Personal experience with subclavicular incannulation of the subclavian artery, 81.

Atrioventricular canal
Notes on 59 operated cases of persistent common atrioventricular canal (partial form), 83.

A-V canal
Silent common A-V canal wtih large left-to-right shunt, 151.

A-V dissociation
Retrograde conduction and its haemodynamic effect during fast idioventricular rhythm and ventricular tachycardia in the dog, 165.

B

Biology
Biological significance of fragments of rabbit IgG, 49.

Bronchodilatatory drugs
Comparison between the metabolic and cardiovascular effects of three modern bronchodilatatory substances, 85.

Bronchopulmonary diseases
Functional and clinical evaluation of feprazone-bromhexine association in bronchopulmonary diseases, 117.

C

Cardiology
The advantages and limitations of radio-isotope angiocardiography in acquired heart disease, 198.
Analysis and standardization of the chemico-photometric and immunological method for determination of CK and CK-MB enzymes, 273.
Changes in epimyocardial stimulation threshold time in patients with permanent artificial pacemakers, 141.
Heart impairment in Friedreich's disease. ECG findings, 198.
Measurement of serous and urinary myoglobin in acute myocardial infarction, 198.
Relations between dyslipidaemia and ischaemic coronary disease (213 cases complete with selective coronarography), 81.
Results with the vectorcardiogram in the predic tion of haemodynamic data in congenital heart disease. Interatrial defects (ostium secundum), 197.

Cerebral damage
Systematic neurological examination of the newborn in the early detection of cerebral damage and the prevention of its consequences, 277.

Chemotherapy
Arterial chemotherapy of gastric cancer, 143.

Chest
Deformities of the front wall of the chest. Surgical management of pectus excavatum and pectus carinatum. Personal experience and results, 86.

Chyluria
Observations on a case of clinostatic chyluria, 123.

Clomiphene
Clomiphene and puerperal lactation, 161.

Coagulation
Coagulation factors XIII in uremia, 200.

Colon
The soundness of the contribution made by different disciplines to the differential diagnosis of ulcerative colitis and Crohn's disease in the colon, 199.

Coronarography
Relations between dyslipidaemia and ischaemic coronary disease (213 cases complete with selective coronarography), 81.

Crohn's disease
The soundness of the contribution made by different disciplines to the differential diagnosis of ulcerative colitis and Crohn's disease in the colon, 199.

C.S.F. pressure
Cerebrospinal fluid pressure changes on intravenous administration of urea in anaesthetized dogs. A preliminary report, 263.

Cutaneous vasculitis
Immunofluorescence in cutaneous vasculitis, 23.

Cytotoxicity
Features, genetics and in vivo importance of lymphocyte mediated natural cytotoxicity, 71.

D

Dermatology
An original method for the treatment of pemphigus vulgaris by periodic plasmapheresis, 198.
Microangiopathy problem in the skin of diabetics and psoriatics, 141.
Primary cutaneous melanomas in patients already treated for malignant melanoma, 81.
Statistically evaluated clinical observations from a multicenter study on the activity of a new topical antimicrobial and antimycotic skin diseases, 239.
Three cases of congenital aplasia of the skin, 273.

Diabetes
Salivary amylase activity in diabetes mellitus, 255.

Diagnosis
Liquid-crystal thermography in the diagnosis of Dupuytren's contracture, 113.

Dialysis
Features of carbohydrate and lipid metabolism in chronic renal insufficiency. The effect of oral glucose during and after dialysis on changes induced by brief periods of dialysis with a glucose-free bath, 97.
Results of a self-dialysis programme for the treatment of chronic uraemia, 201.
Roentgenographic findings in patients on maintenance dialysis, 251.

Diet
Influence of diet therapy on the behaviour of blood lipids in RDT patients. Preliminary results, 275.

Drug effects
Controlled clinical study of AF 1161 (Trazodone) anti-dissociation effect in ketamine anaesthesia, 81.

Dupuytren's disease
Liquid-crystal thermography in the diagnosis of Dupuytren's contracture, 113.

Dyslipidaemia
Relations between dyslipidaemia and ischaemic coronary disease (213 cases complete with selective coronarography, 81.

E

ECG
Heart impairment in Friedreich's disease. ECG findings, 198.

Echo beats
Retrograde conduction and its haemodynamic affect during fast idioventricular rhythm and ventricular tachycardia in the dog, 165.

Echography
Nephrosonography: Present possibilities, 223.

Eczema
Clinical evaluation of dexamethasone 17-valerate in the topical therapy of eczema, 191.

Electroencephalography
EEG examination of the premature child, 82.
EEG findings in prematures and their relation to prognosis and psychomotor development, 82.

Endocrinology
Pre-, intra-, and post-operative T_3 and T_4 values in patients with thyroid disorders requiring surgery, 199.

Enzymes
Analysis and standardization of the chemico-photometric and immunological method for determination of CK and CK-MB enzymes, 273.

Experimental surgery
Degranulation of syngenic rat mast cells induced by the sera of rats in which a methylcholanthrene sarcoma has been grafted, 273.
Double-layer colic micro-anastomosis with polyglycolic acid. Experimental results, 273.
Experimental of vital function after lung autotransplantation and hilar stripping, 199.

F

Feprazone-bromhexine

Functional and clinical evaluation of feprazone-bromhexine association in bronchopulmonary diseases, 117.

Fluorinated compounds

Intra-alveolar oxygenating washing using some new fluorinated compounds, 278.

G

Gastrectomy

Total gastrectomy. Particular reference to oesophago-jejuno-duodeno-plasty according to Longmire, 274.

Gastrinaemia

Basal gastrinaemia in the various paediatric ages, 203.

Gastroenterological surgery

Pseudocyst of the pancreas fistulized into right pleural cavity, 274.

Total gastrectomy. Particular reference to oesophago-jejuno-duodeno-plasty according to Longmire, 274.

Gastroenterology

Behaviour of proteins and serous lipides following jejunoileal by-pass for obesity, 199.

Cytological investigation in the diagnosis of cancer of the oesophagus, 274.

Duodenal juice lactoferrin values in the diagnosis of chronic pancreatitis, 199.

The lower oesophageal sphincter in the gastroresected subject. A manometric study, 200.

Selective radiological visualisation of the ileum and colon by means of total isoperistaltic enterolysis, 82.

Serum electrolytes after jejuno-ileal by-pass of orbity, 142.

The soundness of the contribution made by different disciplines to the differential diagnosis of ulcerative colitis and Crohn's disease in the colon, 199.

General surgery

The peritoneal intraoperative washing in general acute peritonitis. Experience in 61 cases, 274.

Genetics

Features, genetics and in vivo importance of lymphocyte mediated natural cytotoxicity, 71.

Glomerulonephritis

Immunological problems of chronic glomerulonephritis. Worries of a clinical immunologist, 63.

Gout

The efficacy of treatment with allopurinol versus uricosuric drugs in gout, 155.

Granuloma

A case of non-lipid histiocytosis as the terminal stage of multifocal eosinophilic granuloma. Clinical, histopathological and nosographic features, 203.

Gynaecology

The classification and staging of carcinoma of the cervix uteri. Some comments and proposals, 267.

Medroxyprogesterone in massive doses, an alternative to polychemotherapy, 82.

H

Haematology

Changes in blood cell membrane proteins during embryonal megaloerythropoiesis in relation to haemoglobin maturation, 142.

The diagnosis and therapeutic role of laparosplenectomy in Hodgkin's disease, 275.

Personal experience in the treatment of chronic idiopathic thrombocytopenia with vincristine, 83.

The relation between blood iron and HbA_2 synthesis in the nurseling, 145.

Haemodialysis

Anaemia in patients undergoing periodic haemodialytic treatment: therapeutic criteria and long-term results, 200.

Haemodynamics

Results with the vectorcardiogram in the prediction of haemodynamic data in congenital heart disease. Interatrial defects (ostium secundum), 197.

Heart surgery

Malfunction of Beall valve prosthesis (Mod. 104): Clinical features and treatment, 83.

Notes on 59 operated cases of persistent common atrioventricular canal (partial form), 83.

Results with occlusive bandaging in the management of patent ductus arteriosus, 275.

Holes made by bullets

An interpretation of the discrepancy between the entry and exit holes made by bullets in the skull, 181.

Hyperparathyroidism

Pathogenetic and clinical aspects of hyperparathyroidism after renal transplantation, 142.

Hypertension

Hypertension in chronic renal insufficiency, 84.

Studies and researches

Hypothalamus-pituitary function in amenorrhea-galactorrhea syndrome, 89.

I

Iliac artery

Extraperitoneal thrombo-endarterectomy in the treatment of obliteration of the iliac arteries, 204.

Immune complex

The influence of immune complex composition on the triggering of the complement dependent complex elimination, 1.

Interaction between immunocomplexes (IC_s) and polymorphonuclear neutrophils (PMNs), 103.

Immunodepression
Notes on respiratory disease in immunodepression, 145.

Immunofluorescence
Immunofluorescence in cutaneous vasculitis, 23.

Immunoglobulin
Biological significance of fragments of rabbit IgG, 49.

Immunology
Immunological investigation in systemic lupus erythematosus, 9.
Immunological problems of chronic glomerulonephritis. Worries of a clinical immunologist, 63.

Incannulation
Personal experience with subclavicular incannulation of the subclavian artery, 81.

Infections
Results with a centrifugation and technique for the NBT test in 104 cases of infection in children, 277.

Insulin
A mathematical model for the study of insulin efficiency and secretion in the obese child, 201.

Ischaemia
Incidence, causes and prevention of intestinal ischaemia in reconstruction of the aortoiliac area, 145.

J

Jejunoileal by-pass
Behaviour of proteins and serous lipids following jejunoileal by-pass for obesity, 199.

K

Ketamine
Controlled clinical study of AF 1161 (Trazodone) anti-dissociation effect in ketamine anaesthesia, 81.

Kidney transplantation
Pathogenetic and clinical aspects of hyperparathyroidism after renal transplantation, 142.

L

Lamina vitrea
Notes on the employment of applied mechanics in the interpretation of skull fractures, 175.

Laparosplenectomy
The diagnosis and therapeutic role of laparosplenectomy in Hodgkin's disease, 275.

Leukocytic count
Acute appendicitis in infancy and childhood: The leukocytic picture, 133.

Lipids metabolism
Features of carbohydrate and lipid metabolism chronic renal insufficiency. The effect of oral glucose during and after dialysis on changes induced by brief periods of dialysis with a glucose-free bath, 97.

Lupus erythematosus
Immunological investigation in systemic lupus erythematosus, 9.

M

Manometer
The lower oesophageal sphincter in the gastroresected subject. A manometric study, 200.

Megaloerythropoiesis
Changes in blood cell membrane proteins during embryonal megaloerythropoiesis in relation to haemoglobin maturation, 142.

Megarectum
Megarectum in infancy, 202.

Melanoma
Primary cutaneous melanomas in patient already treated for malignant melanoma, 81.

Microanastomosis
An experimental model for vascular microanastomosis in neurosurgery, 276.

Microangiopathy
Microangiopathy problem in the skin of diabetics and psoriatics, 141.

Murmurs
Silent common A-V canal with large left-to-right shunt, 151.

Myocardial infarction
Measurement of serous and urinary myoglobin in acute myocardial infarction, 198.

N

Nephrology
Anaemia in patients undergoing periodic haemodialytic treatment: therapeutic criteria and long-term results, 200.
Coagulation factors XIII in uremia, 200.
Hypertension in chronic renal insufficiency, 84.
Individual roles of phosphate dependent glutaminase and phosphate independent glutaminase in renal ammonia production, 275.
Influence of diet therapy on the behaviour of blood lipids in RDT patients. Preliminary results, 275.
Long-term evolution of haemolytic-uremic syndrome in adult age, 201.
Results of a self-dialysis programme for the treatment of chronic uraemia, 201.
Skin and kidney immuno-histological findings and immunoprotein clearances in some nephropathy, 143.
The usefulness and limits of distal latency time in uraemia, 276.

Nephrosonography
Nephrosonography: Present possibilities, 223.

Neurosurgery
An experimental model for vascular microanastomosis in neurosurgery, 276.

Changes in renal performance and urinary elimination of electrolytes in head injury patients treated with osmotic agents, 84.
Cranial dermal sinuses in childhood and adolescence, 84.

Neutrophilic count

Acute appendicitis in infancy and childhood: The leukocytic picture, 133.

O

Obesity

A mathematical model for the study of insulin efficiency and secretion in the obese child, 201.
Behaviour of proteins and serous lipides following jejunoileal by-pass for obesity, 199.

Obstetrics

Behaviour of beta1-SP1-glycoprotein, alpha-1-fetoprotein and lactogen placental hormone in normal pregnancy and following delivery, 143.

Oesophageal varices

Personal experience in the treatment of bleeding oesophageal varices, 203.

Oncology

Arterial chemotherapy of gastric cancer, 143.
Cancer of the gastric stump, 203.
The classification and staging of carcinoma of the cervix uteri. Some comments and proposals, 267.
Cytological investigation in the diagnosis of cancer of the oesophagus, 274.
Degranulation of syngenic rat mast cells induced by the sera of rats in which a methylcholanthrene sarcoma has been grafted, 273.

Orthopaedics

Aneurysmal cyst of bone, 276.
Peridurography in the diagnosis of pain of vertebromedullary origin, 84.
Salter's and Chiari iliac osteotomy in the treatment of residual acetabular insufficiency, 276.

Osteopetrosis

Assay on the present clinical and nosographical aspects of osteopetrosis (Albers-Schonberg's disease). Report of five cases, 213.

Osteotomy

Salter's and Chiari iliac osteotomy in the treatment of residual acetabular insufficiency, 276.

P

Pacemakers

Changes in epimyocardial stimulation threshold time in patients with permanent artificial pacemakers, 141.

Paediatric endocrinology

A mathematical model for the study of insulin efficiency and secretion in the obese child, 201.

Paediatric haematology

Circulating leucocytes viability during the neonatal period, 85.
The prognosis of acute lymphoblastic leukaemia in children, 85.

Paediatric neurology

Systematic neurological examination of the newborn in the early detection of cerebral damage and the prevention of its consequences, 277.

Paediatric surgery

Megarectum in infancy, 202.

Paediatrics

A case of non-lipid histiocytosis as the terminal stage of multifocal eosinophilic granuloma. Clinical, histopathological and nosographic features, 203.
Basal gastrinaemia in the various paediatric ages, 203.
Epidemiological study of early Pseudomonas Pyocyanea intestinal colonization in two newborn wards. Preliminary note, 277.
Induction of serum IgA development in catarrhal children using a polyvalent oral bacterial vaccine, 144.
Practical notes on the treatment of phenylketonuria in children, 144.
The relation between blood iron and HbA_2 synthesis in the nurseling, 145.
Results with a centrifugation and technique for the NBT test in 104 cases of infection in children, 277.
Semiotic and aethiopathogenetic considerations on the meconium ileus, 202.
Study of platelet adhesivity and aggregation in normal subjects of paediatric age, 277.
Thyrosine in the neonate. Note I: Values in 172 immature divided into groups in accordance with weight, gestational age and immaturity index, 145.
Thyroxinaemia in the newborn, Note II: Correlation between blood levels of bilirubin and thyroxine in a group of immature subjects, 145.

Pancreas

Pseudocyst of the pancreas fistulized into right pleural cavity, 274.

Pancreatic diseases

The instrumental symptomatology of pancreatic diseases. Personal experience, 235.

Pancreatitis

Duodenal juice lactoferrin values in the diagnosis of chronic pancreatitis, 199.

Patent ductus arteriosus

Results with occlusive bandaging in the management of patent ductus arteriosus, 275.

Pemphigus vulgaris

An original method for the treatment of pemphigus vulgaris by periodic plasmapheresis, 198.

Peridurography

Peridurography in the diagnosis of pain of vertebromedullary origin, 84.

Peritonitis
Acute appendicitis in infancy and childhood: The leukocytic picture, 133.
The peritoneal intraoperative washing in general acute peritonitis. Experience in 61 cases, 274.

Pharmacological reactivity
The response of the human saphenous vein to pharmacological stimulation in vitro, 209.

Phenylketonuria
Practical notes on the treatment of phenylketonuria in children, 144.

Phonocardiogram
Silent common A-V canal with large left-to-right shunt, 151.

Picorrhiza kurrooa
A pilot phase II trial with Arogya-Wardhani and Punarnavadi-Kwath in viral hepatitis, 157.

Pituitary
Hypothalamus-pituitary function in amenorrhea-galactorrhea syndrome, 89.

Plasmapheresis
An original method for the treatment of pemphigus vulgaris by periodic plasmapheresis, 198.

Platelets
Study of platelet adhesivity and aggregation in normal subjects of paediatric age, 277.

Pneumology
Comparison between the metabolic and cardiovascular effects of three modern bronchodilatatory substances, 85.
Intra-alveolar oxygenating washing using some new fluorinated compounds, 278.
New ventilation techniques for the maintenance of respiratory homeostasis during operations on the lung. Note I: Positive expiratory pressure in single-lung ventilation, 145.
Notes on respiratory disease in immunodepression, 145.

Polymorphonuclear neutrophils
Interaction between immunocomplexes (IC_s) and polymorphonuclear neutrophils (PMN_s), 103.

Portal hypertension
Experiments wtih a new method of peripheral portal decompression: Inferior sapheno-mesenteric anastomosis, 278.
Porto-systemic anastomosis in the treatment of portal hypertension due to intrahepatic block: Advanced surgical techniques, 85.

Pregnancy
Behaviour of betal-SP1-glycoprotein, alphal-fetoprotein and lactogen placental hormone in normal pregnancy and following artery, 143.

Premature child
EEG examination of the premature child, 82.
EEG findings in prematures and their relation to prognosis and psychomotor development, 82.

Prolactin
Clomiphene and puerperal lactation, 161.
Hypothalamus-pituitary function in amenorrhea-galactorrhea syndrome, 89.

Prostatitis
Experimental assessment of the permeabiltiy of the prostatic epithelium of antibiotics in the course of acute bacterial prostatitis, 278.

Proteinuria
Observations on a case of clinostatic chyluria, 123.

Psychomotor development
EEG findings in prematures and their relation to prognosis and psychomotor development, 82

Puerperal lactation
Clomiphene and puerperal lactation, 161.

R

Radiology
Roentgenologic findings in patients on maintenance dialysis, 251.
Selective radiological visualisation of the ileum and colon by means of total isoperistaltic enterolysis, 82.
Xerography in the diagnosis of primary malignant bone tumours, 278.

Raymond's enteropexy
Personal experience with Raymond's enteropexy in the surgical prevention and treatment of intestinal obstruction due to adhesions in 69 cases, 203.

Receptor
Interaction between immunocomplexes (IC_s) and polymorphonuclear neutrophils (PMN_s), 103.

Renal diseases
Nephrosonography: Present possibilities, 223.

Renal insufficiency
Features of carbohydrate and lipid metabolism chronic renal insufficiency. The effect of oral glucose during and after dialysis on changes induced by brief periods of dialysis with a glucose-free bath, 97.
Hypertension in chronic renal insufficiency, 84.

Renal transplants
Results with large doses of 6-methylprednisolone in the post-operative management, 86.

Resuscitation
Anaesthesia and postoperative treatment in thymectomy for myasthenia gravis (Results in 190 cases), 141.
The clinical significance of acute hypophosphoraemia in a resuscitation and intensive therapy section (Clinical and statistical data), 197.
Continuous low-flow enteral alimentation by means of a Nutripoma food pump; preliminary results in neurotraumatological resuscitation, 197.
Critical evaluation of systems to counter gas and anaesthetic vapor pollution, 197.

Results with massive doses of hydrocortisone in the prevention and treatment of cardiogenic shock, 141.

Retrograde conduction

Retrograde conduction and its haemodynamic effect during fast idioventricular rhythm and ventricular tachycardia in the dog, 165.

Roentgenographic findings

Roentgenographic findings in patients on maintenance dialysis, 251.

S

Salivary amylase

Salivary amylase activity in diabetes mellitus, 255.

Saphenous vein

The response of the human saphenous vein to pharmacological stimulation in vitro, 209.

Serum electrolytes

Serum electrolytes after jejuno-ileal by-pass of orbity, 142.

Serum IgA

Induction of serum IgA development in catarrhal children using a polyvalent oral bacterial vaccine, 144.

Shunts

Silent common A-V canal with large left-to-right shunt, 151.

Skin aplasia

Three cases of congenital aplasia of the skin, 273.

Skin diseases in children

Statistically evaluated clinical observations from a multicentre study on the activity of a new topical antimicrobial and antimycotic skin diseases, 239.

Skin electrophysiology

Cutaneous electrophysiology and its relation visceral and cutaneous reflexes, 107.

Skull

An interpretation of the discrepancy between the entry and exit holes made by bullets in the skull, 181.

Skull fractures

Notes on the employment of applied mechanics in the interpretation of skull fractures, 175.

Surgery

A mechanical and histological investigation of the part played by different suture materials in the healing of anastomoses of the colon, 86.

Cancer of the gastric pump, 203.

The instrumental symptomatology of pancreatic diseases. Personal experience, 235.

Personal experience in the treatment of bleeding oesophageal varices, 203.

Personal experience with Raymond's enteropexy in the surgical prevention and treatment of intestinal obstruction due to adhesions in 69 cases, 203.

Porto-systemic anastomosis in the treatment of portal hypertension due to intrahepatic block: Advanced surgical techniques, 85.

Suture materials

A mechanical and histological investigation of the part played by different suture materials in the healing of anastomoses of the colon, 86.

T

Therapy

Clinical evaluation of dexamethasone 17-valerate in the topical therapy of eczema, 191.

Functional and clinical evaluation of feprazone-bromhexine association in bronchopulmonary diseases, 117.

Thermography

Liquid-crystal thermography in the diagnosis of Dupuytren's contracture, 113.

Thoracic surgery

Deformities of the front wall of the chest. Surgical management of pectus excavatum and pectus carinatum. Personal experience and results, 86.

Thrombocytopenia

Personal experience in the treatment of chronic idiopathic thrombocytopenia with vincristine, 83.

Thymectomy

Anaesthesia and postoperative treatment in thymectomy for myasthenia gravis (Results in 190 cases), 141.

Thyrocalcitonin

Assay on the present clinical and nosographical aspects of osteopetrosis (Albers-Schonberg's disease). Report of five cases, 213.

Thyroids

Pre-, intra-, and post-operative T_3 and T_4 values in patients with thyroid disorders requiring surgery, 199.

Thyroxinemia

Thyroxine in the neonate. Note I: Values in 172 immature divided into groups in accordance with weight, gestational age and immaturity index, 145.

Thyroxinaemia of the newborn. Note II: Correlatoin between blood levels of bilirubin and thyroxine in a group of immature subjects, 145.

Topical antibacterial-antimycotic agent

Statistically evaluated clinical observations from a mutlicentre study on the activity of a new topical antimicrobial and antimycotic skin diseases, 239.

Topical corticosteroids

Clinical evaluation of dexamethasone 17-valerate in the topical therapy of eczema, 191.

Traumatology

Notes on the employment of applied mechanics in the interpretation of skull fractures, 175.

U

Urea

Cerebrospinal fluid pressure changes on intravenous administration of urea in anaesthetized dogs. A preliminary report, 263.

Uremia

Coagulation factors XIII in uremia, 200.
Results of a self-dialysis programme for the treatment of chronic uraemia, 201.
The usefulness and limits of distal latency time in uremia, 276.

Urology

Experimental assessment of the permeability of the prostatic epithelium of antibiotics in the course of acute bacterial prostatitis, 278.

Uricosuric drugs

The efficacy of treatment with allopurinol versus uricosuric drugs in gout, 155.

V

Valve prosthesis

Malfunction of Beall valve prosthesis (Mod. 104): Clinical features and treatment, 83.

Vascular surgery

Angiographic and scientific correlations and surgical treatment of supra-aortic trunk obliterations, 86.
Extaperitoneal thrombo-endarterectomy in the treatment of obliteration of the iliac arteries, 204.
Incidence, causes and prevention of intestinal ischaemia in reconstruction of the aortoiliac area, 145.
Liquid-crystal thermography in the diagnosis of Dupuytren's contracture, 113.

Vectorcardiogram

Results with the vectorcardiogram in the predication of haemodynamic data in congenital heart disease. Interatrial defects (ostium secundum), 197.

Ventilation technique

New ventilation techniques for the maintenance of respiratory homeostasis during operations on the lung. Note I: Positive expiratory pressure in single-lung ventilation, 145.

Ventricular tachycardia

Retrograde conduction and its haemodynamic effect during fast idioventricular rhythm and ventricular tachycardia in the dog, 165.

Viral hepatitis

A pilot phase II trial with Arogya-Wardhani and Punarnavadi-Kwath in viral hepatitis, 157.

Xerography

Xerography in the diagnosis of primary malignant bone tumours, 278.
